

Carbon/Sustainability Lead

Location: Toowoomba

Job Type: Full-Time

ABOUT DIT AGTECH

DIT AgTech is a company dedicated to revolutionising the farming industry through innovative technology solutions. We are committed to tackling the world's most pressing agricultural and climate challenges by creating effective, efficient and sustainable farming practices. Our mission is to empower farmers with cutting-edge tools, knowledge, and resources to help them achieve optimal yields while minimising their environmental impact.

We are seeking a Carbon and Sustainability Lead who will lead the development and implementation of our sustainability strategy, manage carbon projects, and collaborate with teams for a consumer-focused carbon offset platform. Our ideal candidate will possess a degree in law, accounting or environmental science, experience in international carbon markets, and a passion for sustainability. If you have excellent communication and project management skills, join us in our mission to make agriculture the solution to climate change!

CARBON AND SUSTAINABILITY INITIATIVES:

- Develop and implement a comprehensive sustainability strategy that aligns with the company's mission and goals.
- Oversee the companies carbon projects, including the development and implementation of emission reduction strategies.
- Manage the process of managing, obtaining and monetizing carbon credits.
- Manage all carbon project audits and reporting requirements.
- Work alongside the companies; software, sales and marketing teams to assist with the development and release of the companies' consumer focused fractionised carbon offset platform
- Participate in industry functions and engagements relating to the companies' carbon initiatives.
- Monitor and report on sustainability performance, setting and tracking targets.
- Lead the growth of the companies' carbon initiatives and the development of a team of people to meet growth expectations.

COMPLIANCE AND REPORTING:

- Ensure compliance with environmental regulations and reporting requirements related to carbon emissions and sustainability efforts.
- Prepare and submit sustainability reports to relevant stakeholders.

STAKEHOLDER ENGAGEMENT:

- Collaborate with internal departments and external partners to promote sustainable practices and carbon reduction initiatives.

- Engage with government agencies, environmental organizations, and industry associations to stay current on regulatory changes and industry best practices.

SKILLS AND EXPERIENCE:

- Bachelor's or higher degree in law, accounting, environmental science, sustainability, or a related field.
- Previous experience in the trading of carbon credits and carbon markets especially international markets.
- Previous experience in carbon legal affairs and sustainability management is an asset.
- Previous experience in developing and submitting carbon projects with various accredited carbon bodies. (Experience with bodies outside of Australia especially Verra preferred)
- Strong understanding of environmental regulations, carbon accounting, and sustainability practices.
- Excellent communication and negotiation skills.
- Strong project management and organizational skills.
- Ability to work independently and as part of a cross-functional team.
- Passion for sustainability and a commitment to environmentally responsible practices.

WHY JOIN DIT AGTECH?

At DIT AgTech, we offer a dynamic and supportive work environment, competitive salary and sponsorship opportunities. You'll have the opportunity to make a meaningful impact in the world by contributing to the advancement of sustainable agriculture and climate solutions.
