NEVILLE

The Nutritionist

SINCE 2025

Ask me anything about nutrition.

Expert livestock nutrition, simplified.

Neville is an AI-powered animal nutrition advisor that provides you with clear, evidence based answers on ruminant nutrition.

Built with advanced natural language processing (NLP) technology and is trained on a curated dataset, Neville draws on trusted, scientific sources to support technical queries. Sources include:

- **Peer-Reviewed Journals:** Leading publications such as Animal Production Science, Journal of Animal Science, and Animals.

- **Textbooks and references:** From established resources like CSIRO, NRC, and BR-Corte.

- **Government and industry reports:** Trusted guidance from USDA, FAO, and MLA.

- **Key insights from scientific conferences** (e.g., NBRUC, AARN).

This dataset is carefully pre-processed, fine-tuned, and regularly updated to deliver clear, actionable guidance on ruminant nutrition.

With Neville you can:

- ✅ **Access Instant Expertise:** Easily access the latest animal nutrition research and advice.

- ✅ **Get Tailored Recommendations:** Adjust guidance for your herd's species, age and production goals.

- ✅ **Save Time on Planning:** Quickly generate feed strategies, diet plans and supplementation advice.

- ✅ **Stay Ahead with Insights:** Leverage the latest nutrition research to optimise animal health and productivity.
