

Job Title: Company Pilot and Field Technician (6 month Full-time Fixed-term contract).**About us:**

At DIT AgTech, we're helping shape the future of agriculture through innovation, technology and sustainability. As a rapidly growing Agtech company, we develop cutting-edge IoT-enabled livestock solutions and methane-reducing technologies that are transforming the way producers manage animal health, productivity and environmental outcomes.

Driven by a strong customer-first culture, we're passionate about solving real-world challenges and delivering practical solutions that create meaningful value on-farm. Our work supports more productive livestock operations, improved sustainability, and a stronger future for agriculture worldwide.

We're now looking for a **Company Pilot & Field Technician** to combine aviation operations with hands-on technical support across our remote agricultural operations.

The Opportunity:

As our **Company Pilot & Field Technician**, you'll be responsible for safely operating DIT AgTech's Cessna 182 aircraft to transport personnel, equipment and supplies, while also providing field-based installation, servicing and technical support for our uDOSE livestock technology.

This is a hands-on and varied role suited to someone who is equally comfortable in the cockpit, working on equipment in the field and supporting customers on remote properties.

What You'll Do:

- Safely operate the Cessna 182 aircraft in accordance with aviation regulations and company procedures.
- Transport personnel, equipment and supplies to remote agricultural properties and operational locations.
- Conduct pre-flight and post-flight inspections and maintain accurate flight records and documentation.
- Install, commission, service and troubleshoot uDOSE systems and associated hardware.
- Conduct preventative maintenance, diagnostics and fault finding to support equipment reliability.
- Provide practical customer training and technical support on uDOSE equipment and the uHUB platform.
- Assist customers with system performance and successful on-farm adoption of DIT AgTech technology.
- Maintain accurate installation, service and field records.
- Coordinate with warehouse, logistics and operational teams to support installations and field activities.
- Manage field parts, tools and inventory as required.
- Support supplement mixing, delivery and other operational activities where required.
- Comply with aviation, WHS, quality assurance and biosecurity requirements.

What You'll Bring:

- Demonstrated experience operating a Cessna 182, including in remote or challenging environments.
- Practical experience in agriculture, field service, mechanical, trade or other hands-on operational roles.
- Strong mechanical, electrical and/or technical troubleshooting skills.
- Confidence working independently in remote agricultural environments.
- Strong customer service and relationship-building skills.
- Excellent communication and teamwork skills.
- Strong attention to detail and commitment to safety.
- Sound problem-solving skills and a practical, solutions-focused approach.
- Ability to manage changing priorities, travel requirements and irregular working hours.
- Experience within agriculture or livestock operations will be highly regarded.

Qualifications and Licences:**Essential:**

- Valid Private and/or Commercial Pilot Licence with relevant ratings and endorsements.
- Minimum 200 hours flight experience in a Cessna 182.
- Current Manual Driver Licence.
- Current Forklift Licence.

Desirable:

- Agricultural, mechanical, electrical or trade-related qualification.
- First Aid certification.

Why Join DIT AgTech:

Join a business that's redefining the future of Agriculture through innovation, technology and sustainability. At DIT AgTech, you'll have the opportunity to work alongside passionate and talented people who are solving real-world challenges for livestock producers around the globe.

As a rapidly growing Agtech company, we're building cutting-edge IoT solutions and methane-reducing technologies that are helping shape a more productive and sustainable future for agriculture. This is an opportunity to be part of a business where your ideas matter, your contribution is valued, and your work has a genuine impact.

We offer a collaborative and supportive culture, competitive remuneration, career growth opportunities, international exposure, and the chance to play a meaningful role in a company that is driving innovation in one of the world's most important industries.

How to Apply:

If you're excited by the opportunity to combine aviation with hands-on agricultural technology and contribute to a growing business, we'd love to hear from you.
